

New Brolly Grip

The ultimate light modifier for the photographer who needs to be mobile. The new Brolly Grip is a unique hand held bracket which supports the flashgun in a horizontal position along an 8cm or 10cm shaft of an umbrella.

Accessories for the Brolly Grip include the new Translucent Umbrella 50cm (20") with 8cm shaft, the new TriFold Umbrella 90cm (36") with 10cm shaft, and 1m Off Camera Cords for Nikon and Canon.

The Brolly Grip is also available to purchase as a kit with the Translucent 50cm (20") Umbrella, creating a compact, quick to assemble 'shoot through' solution for photographers.

Brolly Grip with Translucent Umbrella 50CM (20") - Available separately or in Brolly Grip Kit 2126
