

New Hotrod Octa Softboxes

In addition to our traditional square Ezybox Hotshoe softbox we have now introduced the Hotrod Octa softbox for use with battery operated flashguns. It is available in two different sizes and features an inner diffusion panel and an adapter plate with rods (which supports the weight of the softbox). The flashgun simply slides into a shoe mount attached to the adapter plate.

The Hotrod Octa provides a broad soft light source and alternative catchlight making it perfect for portrait photography.

Specifications

Description	Code
NEW Hotrod Octa 70cm (27.5")	2670
NEW Hotrod Octa 90cm (36")	2690
