

New Hotrod Octa Quadra Kit

The new Hotrod Octa Quadra kit includes the popular Hotrod Octa softbox and the new Quadra Speedring, allowing you to mount your softbox onto the Elinchrom Ranger Quadra. The speedring simply fits directly onto the Hotrod adaptor ring. The kits are available in two different sizes and feature an outer diffusion panel, an optional inner diffuser, adaptor plate and rods (which supports the softbox) and the new Quadra Speedring.

The Hotrod Octa provides a broad soft light source and alternative catchlight making it perfect for portrait photography.
