

## New Triflector Speed-Lite

The new Triflector Speed-Lite is the ultimate beauty lighting accessory for Ezybox Hotshoe users. The Triflector Speed-Lite stand incorporates a clever overhead arm to support the Ezybox Hotshoe which alleviates the need for a separate, expensive boom arm stand. The three reflective panels work in the same way as our highly acclaimed Triflector MkII to allow the photographer to position the light exactly where he or she wants and achieve distinctive catchlights.

Ezybox Hotshot not included in the kit
